

7. **Do not disconnect the equipment or completely remove the DataRecorder** at any time during the procedure.
8. **Treat the DataRecorder carefully.** Avoid sudden movements and banging of the DataRecorder.

**After Completing SB Capsule Endoscopy**

**Return to the doctor's office at the scheduled time** to have the equipment removed.

**Or:** If instructed to remove the equipment at the end of the capsule endoscopy procedure, do the following:

1. Remove the SensorBelt and the DataRecorder and keep in a safe place.
2. Return all the equipment to your doctor's office as soon as possible. Handle the DataRecorder and other equipment carefully without exposing them to shock, vibration or direct sunlight.

ⓘ *If you are not sure that the capsule has passed out of your body and you develop unexplained nausea, abdominal pain or vomiting, contact your doctor for evaluation.*

ⓘ *Undergoing an MRI while the PillCam capsule is inside your body may result in damage to your intestinal tract or abdominal cavity. If you are not certain the capsule is out of your body, contact your physician for evaluation and possible abdominal X-ray before undergoing an MRI examination.*

**Capsule Endoscopy Event Form**
